

ABOUT CONNECT 4 Twist & Turn

Players go “4 the win” by trying to be the first to get four of their colored discs in a row. The unique 5-level tower adds a fun, new twist to gameplay.

CONTENTS

1 Connect 4 Twist & Turn multi-level tower, 36 plastic discs (18 red and 18 yellow), illustrated instructions.

OBJECT OF THE GAME

The object of the game is to get four of your colored discs in a row, either vertically, horizontally or diagonally.

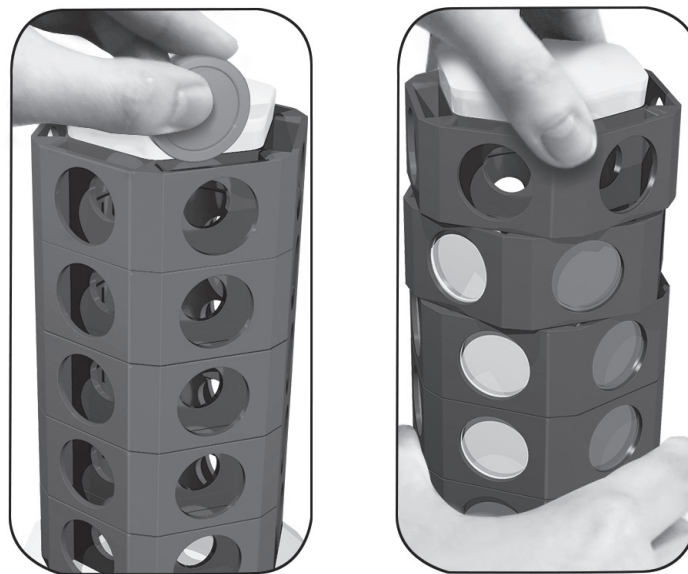

GAME SETUP

1. Divide the red and yellow discs. One player is the “red” player and uses the red discs and the other is the “yellow” player and uses the yellow discs.

2. Place the tower between the two players.

HOW TO PLAY

1. The youngest player goes first and places one of his discs in the tower. He may also - if he chooses to do so - twist one of the levels of the tower, either one place to the left or to the right.

Note: Twisting the tower’s levels becomes more important to gameplay as the game progresses.

2. The opponent places one of his discs in the tower and he may also twist one level, if he chooses to do so.
3. A player must place one of his discs in the tower on every turn. But, they do not have to twist a level of the tower if they don’t want to. However, twisting the tower and allowing discs to drop from one level to another, can often help a player get the winning 4-in-a-row quicker. Watch for 4-in-a-rows in all directions! Don’t forget the diagonal move!

WINNING

The first player to successfully align 4 of his colored discs in a row is the winner!
