

BRAINSPIN™

OPEN YOUR MIND & TAKE YOUR BRAIN FOR A SPIN

2-10 PLAYERS
Ages 7 and up

ABOUT BRAINSPIN

BRAINSPIN is a creativity game. Challenge yourself to see a new perspective on the same old lines! Your friends' brains will delight you as the simple shapes inspire vastly different interpretations.

Frankie Abralind, creator of BRAINSPIN, is a design researcher in Washington DC and serves as adjunct faculty at the University of Maryland's Academy for Innovations & Entrepreneurship. He is fascinated by how something that's totally obvious to him doesn't even register with his friends, or vice versa. BRAINSPIN has been played with people around the world and amazing new answers pop up everyday.

HOW TO PLAY

To play, place a card face up on the table. Use a timer to count down one minute as each player writes a list of all the things s/he sees in the image.

For example, answers for a simple square could include "toast", "elevator shaft", "sugar cube" or "space on a checkerboard". It's really fun to hear what other people imagine the picture could be!

Halfway through the minute, turn the card (90 degrees) to give players a different view of the image. You'll be surprised to see how different some of the cards look when they're turned. New images, that are not noticed one way, are revealed!

SCORING

After each card, players take turns reading their lists aloud. Each unique answer earns a point. Majority rules on contested answers!

WINNING

The player with the highest total score, after three cards have been played, is the winner!
